

LISA DAVIE

HEALTH CARE PROFESSIONAL

My life has been a little journey and along with that my business has as well. New Hope Health Center is one of my loves in life. I knew when I was ten years old that God had given me a gift and I needed to follow it. My hands have felt many pairs of feet and backs over the years and become a little worn.

Over the years of meeting so many amazing professors and fellow colleagues they have left an impact upon my life. I started out and moved up the ladder to become the best therapist, councilor, nutritionist, reflexologist and inspiration of hope possible on all levels. To date I specialize in Microscopic Analysis, Scio, Nutrition, NET and Power Touch.

I believe in always learning. Things are changing and we need to stay on top of our health. I believe each and every one of us is responsible for our own health 100% sometimes a little assistance is needed to get back on track.

1991 Microscopic Analysis (Live Blood) by the Bradford Institution of California in Saskatchewan.
